EDUCATION

Schulich School of Engineering, University of Calgary

January 2023

BSc, Software Engineering

Calgary, AB

WORK EXPERIENCE

WestJet - Airline Operations (Frontend)

Oct 2025 - Present

- ▶ Operational critical internal tooling using **Vue.js & TypeScript**.
- ▶ Advised and implemented numerous application-wide architectural changes to reduce tech debt and improve maintainability while following industry best-practices.
- ▶ Introduction of state-management through Pinia.
- ▶ Decomposition of monolithic components into reusable and maintainable globals.
- ▶ Guide more senior-level teammates who are less familiar in front-end development.
- ▶ Introduced several code quality gates through testing and linting to ensure the codebase is up to industry standards and reinforce better, more uniform code.

WestJet - Check-in (Frontend)

May 2021 - Oct 2025

- ▶ Guest-facing web application using **Vue.js & JavaScript**.
- ▶ Code, test, and maintain pixel-perfect, responsive user experiences supplied by designers.
- ▶ Collaborate with Product, QAs, Designers, API to manage delivery expectations.
- ▶ Focus on reliable and robust code using Test Driven Development and Splunk logging.
- ▶ Experience major architectural/design changes, going through the migration of Vue2 to Vue3 and a complete front-end redesign.
- ▶ Jira Administration as a side-of-the-desk duty, working closely with numerous roles across the company and assisting with their team's operations.
- ▶ Started as an intern focused on absorbing knowledge and guidance from senior developers, asking questions often and failing fast before accepting a permanent position.

TECHNICAL SKILLS

Web Development: Vue.js, HTML5, CSS, JavaScript, Node.js, React, Vitest, Jest, Git

SOFT SKILLS

-
- ▶ Exceptional attention to detail.
 - ▶ Adaptable and eager to constantly learn and grow, not afraid to ask questions.
 - ▶ Determined to solve problems and overcome challenges.
 - ▶ Organized and able to manage time well.
 - ▶ Strong sense of ownership for any assigned project.

INTERESTS

-
- ▶ Weightlifting, video/board games, music, cars, technology, & science.
